

Oscar Weimann

 oslewei |  oslewei@proton.me |  oscar-weimann-7788972b8 |  The Hague, The Netherlands

Education

Bachelor of Computing Science

RIJKSUNIVERSITEIT GRONINGEN

2023 - 2026

Groningen

- Thesis: SparseBDL: Blockchain-Enabled Byzantine-Robust Decentralized Learning over Sparse Topologies
- Courses: Software Engineering | Blockchain Technology | Applied Cryptography
- Grade: 8.6 | 215/180 ECTS

Honours Programme

HONOURS COLLEGE GRONINGEN

2024 - 2026

Groningen

- Alumni of the RUG Honours College, focusing on interdisciplinary and professional life skills
- Attended a Summer School at the Universitat Autònoma de Barcelona, on Religion in the Public Domain

Exchange Programme

NANYANG TECHNOLOGICAL UNIVERSITY

Sem 1 2025 - 2026

Singapore

- Courses: Applied Cryptography | Blockchain Technology | Cyber Threat Intelligence | Embedded Programming | Biomedical Imaging

Professional Experience

Software Engineering Internship

RESEARCHABLE

Sem 2 2024-2025

Groningen

- Worked in a team of 4 on an extensible automatic vulnerability parsing and storage framework
- Allowed Researchable to keep track of vulnerabilities on Grafana to conform to their ISO-27001 certification

CI/CD Grafana Go

Automatic CTF-Challenge Validator

HONOURS COLLEGE GRONINGEN

Sem 2 2025-2026

Groningen

- Worked with a partner to streamline the Ethical Hacking Course final assessment
- Built an automatic Capture The Flag challenge validator for a wide variety of challenges

CTF Python CTFd

Hack050

GEMEENTE GRONINGEN

Sem 1 2024-2025

Groningen

- Attended a hacking competition organized by the Gemeente Groningen to find vulnerabilities in their infrastructure
- Learned real-world cybersecurity and penetration testing environments, working in a team to attack the system

Research

The crossroads between AI, AI generated religions and freedom of religion

HONOURS COLLEGE GRONINGEN

Sem 1 2026 - Present

- Worked in a team to write about the effect of the AI boom on religion and freedom of religion, taking OpenClaw and Crustafarianism as a case study
- Currently working towards publishing in an academic journal

Personal Projects

AI Framework in C

2025 - Present

- Wrote a Machine Learning Library in C without forced external dependencies, achieving 98% accuracy on MNIST

Artificial Intelligence Machine Learning Deep Learning C

Path Tracer in Zig

2025 - Present

- Wrote a multithreaded pathtracer in Zig, following the *Raytracing in one Weekend* book series, achieving sub-second rendering times

Rendering Multithreading Zig

Skills

Languages

English (Native) | German (Native) | Spanish (Native) | Dutch (Fluent) | French (Conversational)

Programming

C/C++ | Python | Go | Zig | Rust | HTML/CSS/JS | Gleam

Tech Stack

Git | CI/CD | Docker | Linux

Personal Interests

Rugby | Cooking | Reading | Recreational Programming | Travelling
